

## S50: Vote for your own faculty chair

### **Senate believes:**

That students should only be able to vote within their faculty so that 3/4 of the university cannot decide the outcome of an election for the faculty they are not affiliated to thus preventing social bias. (Excluding joint honours students who will be able to vote across the faculties they are affiliated to)

### **Senate resolves:**

To limit student to only be able to vote within their faculty/s.

### **Senate mandates:**

The president will work alongside the website assistant to only allow students to vote in the faculty/s they are a part of.

Motion passed: March 2016

Policy lapse: March 2018
