

**My idea for change:**

As discussed in the Entertainments Zone, the Sunday Night Live event during Freshers' Week was a huge success for not only new students but also second and third year students. Attendees of the Zone have requested that this runs more regularly than just once a year.

**How should this change?**

The event should be run once or twice a term.

**What should the SU do?**

Senate mandates the President to work with the Events and Venue Co-Ordinator to look into the possibility of holding the event more often than once a year.
