## EC24 – London Support Services

### Submission:

*That the Students' Union and Sabbatical Officers lobby for better support services for students at the London Campus.*

*As a Union, we have received many queries from students at the London Campus about how we can help and support them when they are down in London and we are in York. We have also seen many Academic Advice cases from these students, with the majority of our Page 5 of 8 students in London being international. I believe it should be a priority of the Union and Sabbatical Team 20/21 to extend our reach and ensure better support for these students moving forward, and to work with the University and Director of the London Campus to do so.*
