

EC04: Silence in the Library

What I want to see:

A quiet hour in the whole library each day

Why I want to see the change:

There are days where there aren't enough computers, people think the library is a social zone which irritates others especially when people jump across rooms and sofas. Sometimes people bring in smelly

Who should lead the change:

President of Education

Policy passed: November 2018

Policy lapses: November 2020
