

S63
ROVING
LAPTOP CHARGERS

What should we change?

Can't charge a laptop in the SU - not enough plug sockets. Would increase coffees drunk the SU because students need coffee, and would make the SU busier and buzzing.

How should we change it?

We need those roving charger ports that they have in the library, in the SU

Who should lead the change?

President of the Students' Union

Change passed: November 2017

Change lapse: November 2019
