

SU45: Slating the slate

Senate believes:

That the exec team should be voted on based on their individual campaigns and manifestos

That elected individuals should be held accountable for their own manifestos throughout the year

That slates encourage hostility during campaigning

That if only certain team members are elected from the slate it is detrimental to the working environment

Senate resolves:

That the exec team should work together once elected to benefit the student experience

That running in slates should be banned at YSJSU

Senate mandates:

The President to add to byelaw 9 of the SU constitution banning slates during elections

Motion passed: November 2015

Policy lapse: November 2017

Proposed by Gabby Wilson, VP Education
